PROFESSIONAL SUMMARY

Full Stack Developer and Founder of **RoGency** — an elite AI-native web development studio. With 5+ years of experience I specialise in Next.js, TypeScript, and modern React architectures, delivering high-performance applications that bridge beautiful UI with robust AI and backend systems. Shipped 40+ products for 25+ clients worldwide across SaaS platforms, e-commerce, AI agent pipelines, real-time systems, and scalable cloud infrastructure.

WORK EXPERIENCE

Founder & CEO

2024 – Present

RoGency — AI Web Dev Studio

Founded and lead RoGency, a cutting-edge AI-native web dev studio. Orchestrate autonomous AI agents, custom automation pipelines, and high-performance Next.js applications for international clients.

Next.js AI Agents FastAPI TypeScript Vercel

Senior Full Stack Engineer

2022 – 2024

Vertex Solutions

Led development of a multi-tenant SaaS platform serving 10,000+ users. Optimised page speed by 60% with Next.js App Router, edge functions, and advanced caching.

Next.js TypeScript AWS PostgreSQL

Frontend UI Developer

2020 – 2022

InnoLab Systems

Built robust web applications and maintained a custom component library. Redesigned core UI dashboards, boosting user retention by 25%.

React Tailwind CSS Figma GraphQL

Junior Web Developer

2019 – 2020

Creative Pixel Agency

Delivered 15+ client platforms with headless CMS integrations, custom APIs, and responsive design systems.

JavaScript Headless CMS PHP

FEATURED PROJECTS

RoGency — AI Web Dev Studio

Elite AI-native agency specialising in next-gen React architectures and multi-agent AI systems.

Next.js AI Agents Motion > Live

SaaS Analytics Dashboard

Full-stack analytics platform with real-time charts, RBAC, team workspaces, and Stripe billing.

Next.js Prisma Stripe > Live

Headless E-Commerce Store

High-performance storefront with lightning-fast cart, secure checkout, and Sanity CMS catalog.

Next.js Sanity Stripe > Live

Collaborative Real-Time Chat

Socket-powered messaging with workspace channels, instant search, file sharing, and logs.

Socket.io Redis PostgreSQL > Live
